

**EBARA'S FLUID HANDLING DIVISION ANNOUNCES THE APPOINTMENT OF
AARON JACKSON, SOUTH CENTRAL REGIONAL SALES MANAGER**

ROCK HILL, SOUTH CAROLINA – July 18, 2019– In a continued effort to deliver the best customer service in the industry, EBARA Pumps Americas Corporation (EPAC), a leading provider of water and wastewater pumps, is pleased to announce the appointment of Aaron Jackson as Regional Sales Manager – South Central.

Aaron's career in the pump industry spans 17 years; working for both pump distributors and pump manufacturers. Most recently, Aaron worked as Pump Sales Manager for Hugh M. Cunningham Companies, where he was responsible for managing pump sales throughout the South Central United States.

As Regional Sales Manager at Ebara, Aaron will be responsible for the promotion and sales of EBARA products throughout Texas, Louisiana, Arkansas, Oklahoma, Kansas and Western Missouri.

"Aaron will be an outstanding addition to the EBARA team," stated Justin Hovinen, Sales Manager – Central United States. "He brings a deep blend of both pump application experience and customer satisfaction that will allow him to make a positive impact with Ebara customers from day one."

###

About EBARA Pumps Americas Corporation (EPAC, www.pumpsebara.com) is an American subsidiary of EBARA Corporation, Japan. Representing the North American portion of the global pump and fluid machinery manufacturer, EPAC encompasses two divisions, Standard Pump and North American Custom Pump.

The Standard Pump Division (www.pumpsebara.com) provides engineered pump, pump products and related services for the water, wastewater, sewage, commercial, industrial and municipal industries offering reliable product knowledge, application expertise and responsive support including aftermarket replacement parts services. EBARA Standard Pump Division maintains inventory that allows it to assemble, test, and ship pump units and offer a 24-hour quick-ship program for stainless steel stock pumps and parts and 3 to 5 day shipments on cast iron submersible pumps up to 60 HP. Recognizing the continued strain on water and wastewater facilities and infrastructures with increased maintenance, energy, and environmental demands and costs, EBARA Pumps Americas Corporation strives to deploy the best water, wastewater pumps, pump products, and technologies to meet these requirements. Founded in 1912, EBARA Corporation (www.ebara.co.jp/en/) is recognized as a world leader in the design, development and manufacture of industrial machinery with a predominant focus on the production of pumps, pumping systems and compressors for a wide range of applications. Ebara remains the largest single brand pump company in the world and develops high quality, efficient products and key system components for the fields of water supply, energy and environmental issues.
