Model CB

Single Stage Horizontal Split Case Pump

SURFACE PUMPS

Model CB

Features:

- High efficiency impeller for energy savings.
- Compact design for space savings.
- Shielded bearings for reduced maintenance.

Specifications:

- Capacity: to 16,375 gpm (3719 m³/hr)
- Head: to 492 feet (150 m)
- Power Range: 7.5 to 1,000 hp (5.5 - 750 kW)
- Working pressure: 232 psi (16 BAR) max
- Discharge Size: to 16 inch (400 mm)
- Temperature: 32 to 176°F (0 to 80°C)

Applications:

Public Utilities

- Municipal water supply
- Irrigation
- Drainage

General Industrial Use

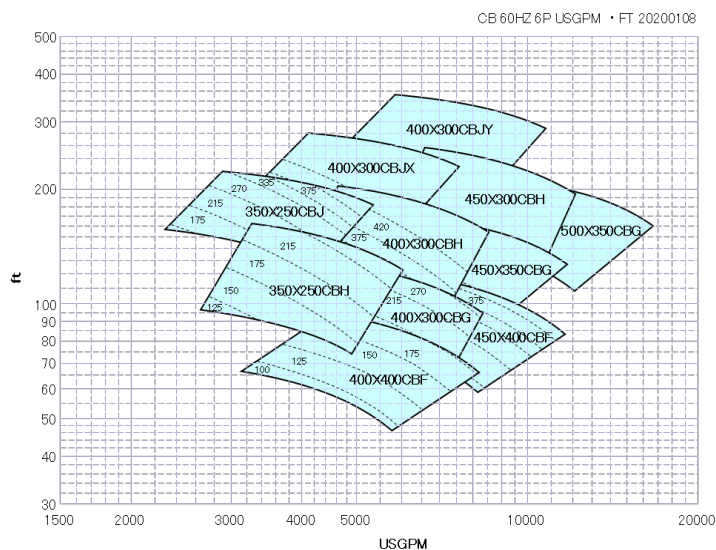

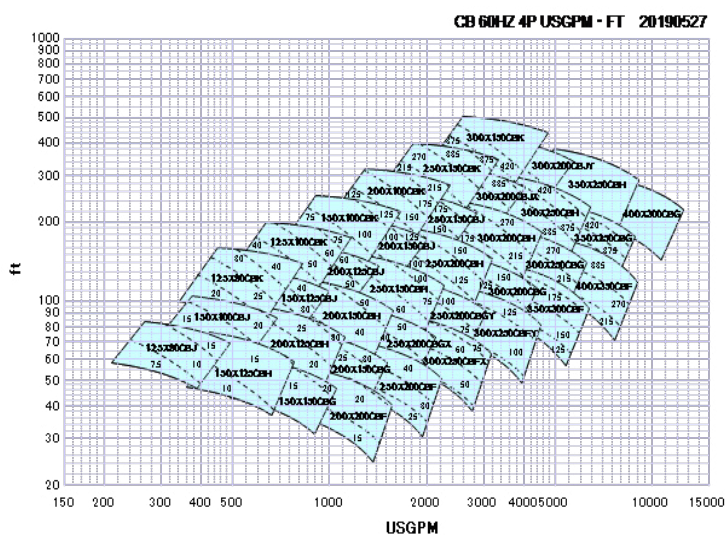

- Water supply
- Process cooling and chilled water
- Water circulation
- Boiler feed water

Building Services

- Water supply
- Air conditioning
