Model DWO

Open Impeller Centrifugal

CENTRIFUGAL PUMPS

Model DWO

Features:

- Open impeller - suitable for suspended solids in liquid and dirty water; solids handling to 3/4" (spherical)
- Close coupled design - saves space; simplifies maintenance and installation
- Stainless steel liquid end components - high quality; corrosion resistance, NPT threaded connections, hose barb connections
- Back pullout construction - assembly and overhaul of the impeller and seal without distorting suction and discharge connections
- Top centerline discharge and foot support under casing - ensures self-venting and reduces misalignment from pipe loads
- High operating efficiency - lowers operating costs
- High quality mechanical shaft seals and o-rings - available for standard pumping requirements or optional high temperature and chemical duty operation
- TEFC motors, IEC motors manufactured by EBARA Corporation

Applications:

- Food Process
- Bottle washing
- Cooling systems
- Scrubbers
- OEM equipment application
- Spray systems
- Beverage processing
- Pharmaceutical services
- Water reclamation and treatment
- Parts washers
- Paint plants
- Dirty liquid handling
