**EBARA PUMPS AMERICAS CORP. HIRES
WALT ERNDT AS DIRECTOR OF SALES**

ROCK HILL, SOUTH CAROLINA – Aug 12, 2021 – EBARA Pumps Americas Corp., a leading provider of water and wastewater pumps, pump products and services, is pleased to announce **Walt Erndt** as Director of Sales, USA, Standard Pump Division.

An experienced pump professional and business leader with a strong technical background, Walt has worked in various executive sales and management roles with Pentair, E-One and Crane Pumps and Systems. Additionally, Walt is a past President of Submersible Wastewater Pump Assoc. (SWPA), holds a position on the Editorial Advisory Board Pumps and Systems Magazine and is a member of WEF.

“I am very pleased Walt has joined our team,” said Rick Thompson, Vice President, EBARA Pumps Americas Corp., Standard Pump Division. “With his extensive background and knowledge of the pump industry, Walt will continue to provide the attention and support required to deliver enhanced products and services to our distribution channels and customers.”

About EBARA

EBARA Pumps Americas Corp. is an American subsidiary of EBARA Corporation, Japan. Representing the North American portion of the global pump and fluid machinery manufacturer.

EBARA Pumps Americas Corporation (www.pumpsebara.com) provides engineered pump, pump products and related services for the water, wastewater, sewage, commercial, industrial and municipal industries offering reliable product knowledge, application expertise and responsive support including aftermarket replacement parts services. EBARA Pumps Americas Corp. maintains inventory that allows it to assemble, test, and ship pump units and offer a 24-hour quick-ship program for stainless steel stock pumps and parts and 3 to 5 day shipments on cast iron submersible pumps up to 60 HP. Recognizing the continued strain on water and wastewater facilities and infrastructures with increased maintenance, energy, and environmental demands and costs, EBARA strives to deploy the best water, wastewater pumps, pump products, and technologies to meet these requirements.
